B.Sc (Computer Science)

Professional Experience

Company : Kapiital Kapslock 2021 - 2024

Software Developer and CTO

Developing Agile web application and mobile application using reactjs.

Projects

1. SquareNow App

It is a Loan management application that is collaborative with NBFCs, MFIs, and global Financial Institutions of various sizes and sectors, leveraging technology to optimize business performance.

2. Pookadai App

It is a Loan management application that is collaborative with NBFCs, MFIs, and global Financial Institutions of various sizes and sectors, leveraging technology to optimize business performance.

3. Pookadai Web

The app might allow customers to browse through a catalog of products or services offered by Pookadai and place orders directly through the app. It would likely include various payment options for users to make transactions securely, such as credit/debit cards, mobile wallets, or other online payment systems.

4. Pookadai Delivery App

A delivery app is a software application designed to facilitate the ordering, tracking, and delivery of flowers or services to customers. These apps have gained significant popularity, especially in recent years, due to the rise of e-commerce and the demand for convenient and efficient delivery services.

5. Pookadai Purchase App

A flower purchase app is a mobile application designed to facilitate the buying and delivery of flowers to customers.

6. Pookadai Packing App

A Flower Packing App is a digital tool or software designed to assist florists or flower shop owners in efficiently managing the packing process of flowers.
